

## LICENSED CASPIAN STALLIONS AT STUD – EUROPE

The Stallion Licence indicates that the stallion has passed a veterinary examination to certify the lack of any apparent congenital fault. Conformation and temperament should also comply with the Breed Standard. No Caspian stallion may stand at stud without a Licence.

*NOTE: Photographs and text are supplied by stallion owners. CHS regrets that it cannot accept responsibility for their accuracy, and advises that you check with the stallion owner before sending a mare to stud.*

BSA = Breed Standard Approved (a voluntary additional check by panel that the horse meets the Breed Standard).

\* After a name indicates Foundation Stock.

**HENDEN ALJABA  
1540/2UK01116**

Healthy temperament, easy to handle, initially reserved, expressive look, flowing movements, willing to learn. He covers only by hand, here very attentive. He is only worked on the ground and in free-jumping. Aljaba's maternal grandsire was Zeeland\* and his pedigree includes the very rare Aseman\* and Anahita\* foundation lines.

## FRANCE - Pau

**LIGHT BAY**  
11.1 hh (114 cms)

**PURE-BRED CASPIAN**

**ROSMEAR KOUROSH  
1691/UK0593**

Kourosh has produced two foals to date and covered one mare in 2016. Lack of use to date due to insufficient unrelated mares in France. Both foals show extremely good characters and fine features. He has been backed, although not ridden for some time.
