

## LICENSED CASPIAN STALLIONS AT STUD - UNITED KINGDOM

The Stallion Licence indicates that the stallion has passed a veterinary examination to certify the lack of any apparent congenital fault. Conformation and temperament should also comply with the Breed Standard. No Caspian stallion may stand at stud without a Licence. CHS holds lists of other stallions at stud which may not be included on these pages, please contact the Registrar.

*NOTE: Photographs and text are supplied by stallion owners. CHS regrets that it cannot accept responsibility for their accuracy, and advises that you check with the stallion owner before sending a mare to stud.*

BSA = Breed Standard Approved (a voluntary additional check by panel that the horse meets the Breed Standard).

\* After a name indicates Foundation Stock.

Kassam is a lovely bright chestnut with a fabulous temperament which he has passed on to his foals. He has correct conformation, with superb movement. His bloodlines trace back to Karoun, Khorshid Kola\*, Mehran\* and Siyah Gosh\*, all excellent foundation lines.
